JOSHUA BLUE-JACK

Project Coordinator

Winnipeg, MB |431-277-5564 | bluejackjosh@gmail.com | GitHub

PROFILE

- Project Coordinator with 3+ years of experience gathering requirements, supporting Agile backlogs, validating data, conducting UAT, troubleshooting technical issues, and collaborating with technical and business stakeholders.
- Experienced in data-quality controls, process improvement, reporting, relational databases, and Power BI, with financial tax-records and engineering domain exposure.
- Bachelor's in computer science, master's in information management, and an Advanced Diploma in Technology Management.
- Certified Associate in Project Management (CAPM) skilled in working in agile and predictive project environments and handling business analysis tasks including requirement gathering and User Acceptance Testing (UAT).
- Skilled in operationalizing intake and review workflows, maintaining audit-ready documentation, and translating stakeholder requirements into structured decision frameworks.
- Excellent communication skills for collaborating with product managers and business stakeholders in analyzing requirements and implementing software improvements in Agile teams.
- Proven capability to adapt to change in a fast-paced work environment.
- Open to relocation.

SKILLS

Governance & Analysis: Requirements gathering, UAT, process standardization, document control, audit-ready reporting, decision frameworks, stakeholder facilitation.

Tools: JIRA, Asana, Visio, MS Office 365, SQL, Power BI, AWS, Postman, Figma, VS Code.

Methodologies & Practices: Agile/Scrum, Predictive, unit acceptance testing (UAT).

EXPERIENCE

Project Administrative Support| SMS Engineering - Winnipeg, MB **Oct 2024 – Present**

- Maintained the quality of project tracking data on Asana which ensured accurate Power BI reports for project champions to easily visualize action items for the project teams.
- Led integration of Autodesk Construction Cloud (ACC) Build for RFI document reviews, mapping project stakeholder communication requirements to ACC functionalities and driving process alignment and adoption across design teams.
- Liaised with the finance department to promptly review invoices received from vendors, ensuring seamless processing of payments and maintaining positive relationships with vendors.
- Prepared regular status updates for all project RFIs ensuring urgent items received expedited reviews to meet up with project schedules.
- Analyzed project reporting requirements and maintained data on Excel and Asana to feed Power BI dashboards, tracking RFI review timelines and action item status across Provincial Fire and Life Safety (PFLS) projects province wide.
- Served as first line of triage for operational issues encountered by in-house project designers and subconsultant teams on Autodesk, troubleshooting root causes, and providing resolution guidance.

- Coordinated communication for RFI and Submittal reviews across project managers, designers, and contract administrators to meet SLA review timelines.
- Maintained standardized document control processes and tracking of project CCDCs contracts, coordinating project document signoff between the General Contractors (GC) and Owner before projects start.
- Managed vendor relations for office printers, plotters and safety equipment's, handling renewal of contracts, coordinating communication, reviewing cost for purchase orders and ensuring items met quality standards.
- Created and maintained knowledgebase of guides for utilizing Autodesk Build and Asana.

Technical Support Analyst| Ulesson Education Group - Abuja, Nigeria **Jul 2023 – Dec 2023**

- Enforced quality assurance (QA) standards, verifying clean, structured data entry practices across CRM platforms and spreadsheets to support accurate sales report data.
- Monitored student engagement trends using Google dashboards to provide specific actionable steps to guardians and students, enhancing their learning experience and boosting customer retention rates.
- Handled focus groups calls with customers, gathering and analyzing requirements for the product team to support prioritization of features on sprint backlogs.
- Resolved all issues encountered by customers on web and mobile applications via phone calls troubleshooting and identifying root causes and providing clear steps to resolutions.
- Coordinated the onboarding and customer support of 500+ new customers, utilizing communication and active listening skills during all sessions, analyzing and promptly responding to customer pain-points, achieving 85%+ QA rating.

Business Systems Analyst | Federal Inland Revenue Service (FIRS) - Abuja, Nigeria **Mar 2021 – Mar 2022**

- Coordinated data cleaning and analysis of tax records, supporting the integration of tax records management system and enhancing tax records storage and retrieval time.
- Led the validation of migrated tax records, ensuring data accuracy across all necessary fields for compliance purposes and ensuring newly deployed tax management software met the definition of done (DoD).
- Supported User Acceptance Testing (UAT) phase for the roll-out of a tax records management software, ensuring application features met business requirements.

TRANSFERABLE EXPERIENCE

Full Stack Web Developer (React, Django & Django REST Framework) |Winnipeg MB, Canada - **Mar 2026 - Present**

- Built an automated email ingestion pipeline using IMAP polling and keyword-based classification to auto-file project emails, reducing manual triage time for engineering administrative staffs.
- Built an analytics dashboard to give project managers real-time visibility into overdue and at-risk RFIs, computing response-time and project-status metrics with the Django ORM.
- Implemented JWT authentication in DRF and used protected React routes with Axios interceptors, enabling secure session handling and reliable access to authenticated features across the app.

Full Stack Web Developer (Python & Django) | Crib365 – Canada Remote **Oct 2024 – Jun 2025**

- Collaborated with Engineering lead in modeling relational databases using Django ORM, handling database migrations, and optimizing queries.
- Utilized Django ORM for handling search, filtering, sorting, and pagination custom queries using Django Q, allowing users to easily navigate large rental listing database.
- Handled code reviews using GitHub following pre-defined development workflows for maintaining stable codebase versions.

- Collaborated with QA engineers and Product leads during testing phases of development lifecycles, ensuring implemented features met acceptance criteria, debugging and resolving any errors encountered.

EDUCATION

- Advanced Diploma in Technology Management - **Red River College Polytechnic, Winnipeg, MB Aug 2024**
- Master of Information Management - **Ahmadu Bello University, Zaria, Kaduna State, Nigeria Oct 2023**
- Bachelor of Science in Computer Science - **Bowen University, Iwo, Osun State, Nigeria Jul 2019**

CERTIFICATION & TRAINING

Microsoft Power BI Data Analyst Professional Certificate – In Progress

Certified Associate in Project Management (CAPM) **Jul 2026**

Microsoft - Azure Fundamentals (AZ-900) **Sept 2024**

Alison – Essentials of IT Service Management and Infrastructure Library Level 4 (ITIL4) **Jun 2023**

Microverse - **Full-Stack Developer Bootcamp (React and Ruby on Rails)** | **San Francisco USA** - Remote
Sept 2021 – May 2022
