JOSHUA BLUE-JACK

Data Analyst

Winnipeg, MB |431-277-5564 | bluejackjosh@gmail.com | GitHub

PROFILE

- Data analyst with 3+ years of experience supporting CRM operations, enterprise technology implementations, workflow improvement and end-user adoption.
- Bachelor's in computer science, master's in information management, and an Advanced Diploma in Technology Management.
- Certified Associate in Project Management (CAPM) skilled in working in agile, predictive project environments and handling business analysis activities.
- Experienced using Freshsales CRM to support customer-data quality, reporting, customer onboarding and service operations.
- Skilled in translating business needs into system workflows and supporting implementation activities involving data cleansing, migration validation, functional testing and UAT.
- Open to relocating.

SKILLS

CRM and Business Systems: Freshsales CRM, Autodesk Construction Cloud, Asana, Jira, Visio, Lucidcharts.

Business analysis: Requirements elicitation, stakeholder interviews, process mapping, workflow analysis, UAT, acceptance criteria and root-cause analysis.

Data and Reporting: Excel, Power BI, SQL, CRM data validation, data cleansing and migration verification.

Technical: REST APIs, JSON, Postman, Azure, AWS and Python.

EXPERIENCE

Administrative Support Staff (Technology and Project Systems) | SMS Engineering — Winnipeg, MB
Oct 2024 – Present

- Led discovery and adoption activities for Autodesk Construction Cloud Build, translating stakeholder communication and document-review requirements into configured workflows and standardized processes across multidisciplinary design teams.
- Analyzed project reporting requirements and maintained accurate data in Excel and Asana for Power BI dashboards tracking RFI turnaround times and action-item status across provincial Fire and Life Safety projects.
- Coordinated RFI and submittal workflows among project managers, designers, contract administrators and subconsultants, monitoring deadlines and escalating urgent items to support service-level and project-schedule commitments.
- Served as the first point of contact for Autodesk platform issues, investigating root causes, resolving user problems and escalating complex incidents with supporting documentation.
- Created and maintained user guides and knowledge-base documentation for Autodesk Construction Cloud and Asana, supporting consistent processes and user adoption.
- Maintained standardized document-control processes for contracts and project records, coordinating reviews and approvals among general contractors, project teams and owners.
- Coordinated vendor relationships, contract renewals and purchase-order requirements for office technology and safety equipment, ensuring purchases met cost, quality and operational requirements.

- Partnered with Finance to validate vendor invoices, resolve discrepancies and support timely payment processing.

Systems Analyst| Ulesson Education Group - Abuja, Nigeria **Jul 2022 – Dec 2023**

- Facilitated customer focus groups via phone calls and analyzed feedback captured through Freshsales CRM, translating recurring needs and pain points into actionable requirements for product sprint prioritization.
- Maintained and validated customer records in Freshsales CRM, enforcing clean and consistent data-entry practices to improve the reliability of sales and customer-engagement reporting.
- Monitored engagement trends through CRM and reporting dashboards, recommending targeted interventions that improved the customer experience and supported retention.
- Coordinated the onboarding and CRM-supported service delivery for more than 500 customers, achieving a quality-assurance rating above 85%.
- Investigated web and mobile application issues, documented root causes and resolutions, and escalated defects with sufficient detail for technical teams.

Systems Analyst | Federal Inland Revenue Service (FIRS) - Abuja, Nigeria **Mar 2021 – Mar 2022**

- Coordinated data cleaning and analysis of tax records, supporting the integration of tax records management system and enhancing tax records storage and retrieval time.
- Performed post-migration validation of tax records, confirming data accuracy and completeness across required fields and verifying that the newly deployed tax-management system met agreed acceptance criteria.
- Executed User Acceptance Testing (UAT) phase for the roll-out of a tax records management software, ensuring application features met business requirements.

EDUCATION

- **Advanced Diploma in Technology Management - Red River College Polytechnic, Winnipeg, MB Aug 2024**
- **Master of Information Management - Ahmadu Bello University, Zaria, Kaduna State, Nigeria Oct 2023**
- **Bachelor of Science in Computer Science - Bowen University, Iwo, Osun State, Nigeria Jul 2019**
